To achieve, one needs to understand the balance between living life and achieving success in career, the aspirations are many and resources limited.

Dr. Narender Vunynale

Evaluate skills, proficiency, risk, and the framework before strategizing to achieve the desired outcomes while balancing the role in social, economic, and professional environment. Think positive, be practical, unique for yourself, do not compare, strive hard and be determined to achieve what you set as a goal. In case, failure confronts, then “fall like a seed to **GROW** with vigour and rigour again, but not like a leaf”. Wish you all – the best for your bright, healthy, and happy future and life, and remember to become a responsible citizen of the nation.”

Seshanth N S
Head - Marketing
(The Marketing
Club)

“When my tenure as the Head of Marketing Club started, I had 3 visions in my mind apart from whatever we have planned for club activities.

1. To build a positive and vibrant environment, where everyone's thoughts are respected and welcomed.

2. To build a sense of belonging and rapport among the members beyond the functions of club as well.

3. To nurture the marketing mind of the fellow students by conducting activities and encouraging to build a marketing mindset/culture throughout the campus.

I feel the club as a whole have achieved this to certain extent, which I am really proud of. Bringing live projects, crafting Marketing golden booklet and roping in 6 Industry stalwarts for the Business Conclave along with conducting events where not only MBA students but also UG students participated in huge numbers (Case Study Competition) will always stay close to my heart.”

“During my tenure as co-head of Mark8inc, we successfully created impactful campaigns about club's promo organized engaging events, elevating the club's presence. Events like Adv-O-case and retro revamp helped to bring out the creative part of marketing whereas marketing booklet and workshops/courses helped to nurture the technical aspects and ofc not to forget the super successful Conclave. Overall a wholesome experience wishing the coming batches to follow the footsteps and take the club to new heights.”

Placecom has been instrumental in facilitating this blend. It has equipped me with skills I had not previously believed I possessed, fostering both personal growth and the satisfaction of facilitating placements for others. Throughout my tenure, I have honed skills including negotiation, teamwork, time management, event coordination, and mentoring. In summary, if I were to encapsulate my experience in a single phrase, it would be: "Placecom made me corporate-ready.”

Kaushiki Purohit

“The journey has been a rollercoaster, with both joyful moments and challenges, yet it has imparted lifelong lessons that I'll forever hold dear. Despite starting as a voluntary commitment, my dedication transformed it into a self-driven endeavor, where going the extra mile became second nature. Prateek Patel

“When I first came to this college, during the initial days, there was an orientation where, on the 3rd day, our seniors introduced us to the placement committee. When I saw them on stage, I thought to myself that perhaps I wouldn't be able to reach that level, so it would be better to join some other club committee. When the deadline for the placement committee's form was nearing, I took some steps towards it just 4 hours before the deadline, and I filled out my form just 5 minutes before the deadline, thinking that whatever happens now, we'll see. When the entire selection process for the placement committee was completed and I was selected as a junior placement committee member, I was very happy. Then, the next hurdle was how to move from the junior placement committee to the senior placement committee, but slowly, step by step, everything fell into place, and I finally made it to the senior placement committee. It was one hell of a ride. Whenever I look back and see where I started and where I am now, I feel quite proud. These past 2 years on the placement committee have changed me a lot as an individual. I am thankful and grateful for the opportunity to be a part of it.”

“Through my journey on the Placement Committee, I've encountered a myriad of experiences - from moments of elation to instances of challenge. Yet within each twist and turn, I've gleaned timeless wisdom that has left an indelible mark on my character. What began as a voluntary endeavor soon evolved into a deeply personal mission, driving me to consistently exceed expectations. However, it was the sense of unity within our team that truly elevated the experience, making it one to be treasured and celebrated.”

Yukta Prakash

“My MBA experience would have been entirely different if I weren't a member of the placement committee. This part of my journey has taught me crucial lessons in leadership, teamwork, resilience, and, most importantly, patience. From managing the coordination of job placements for fellow students to celebrating with those who secure positions, being on this committee is like a rollercoaster ride. If you ever get the chance to be a part of it, I highly recommend giving it a try!”

“It has been a rollercoaster journey filled with moments of joy as well as conflicts. But it has definitely taught me lessons for life that I shall always remember. Although a voluntary service, the commitment soon became a self motivated journey for me, I did not hesitate to go an extra mile when required. The belongingness to the team is what made the experience memorable and cherishable for me.”

“My journey with the Placement Committee has been a mosaic of experiences, colored with moments of triumph and resilience. In the tapestry of my time here, I've woven threads of invaluable lessons that have shaped my growth in profound ways. What commenced as a voluntary commitment gradually morphed into a passionate pursuit, urging me to push my limits and strive for excellence relentlessly. Yet, it was the bond forged with my fellow teammates, the collective spirit of resilience and unity, that breathed life into the journey, making each milestone achieved and challenge overcome a testament to our shared dedication and determination.”
